We'll cross the Carpathian Mountains through a low pass in the High Tatra range as we pedal from Poland, through Slovakia and into the Danube Basin in Hungary. Part of our route follows the ancient "Amber Route" that connected the Baltic Sea with the Adriatic. This historic trade route is perfect for cyclists who love undiscovered regions and pedaling through beautiful landscapes.

## Bicycle Tours in Slovakia: Cycling Krakow to Slovakia Plus! Budapest

### Tour begins in Krakow

**Highlights** Medieval Krakow, Krakow market square, Royal Wawel Castle, Vistula River

Krakow is one of Europe's most beautiful cities and has been on UNESCO's list of World Heritage sites since 1978. It was spared from devastation during World War II and retains a multitude of architectural and urban planning examples from the 12th century. The city is dominated by the Royal Wawel Castle sitting on a rise above the Vistula River. Below the castle lies the Medieval city, home to one of the largest market squares in Europe. You'll want to spend at least one extra day, if not two, in Krakow before our tour begins. We fit bicycles this afternoon and will enjoy an inaugural dinner together this evening.

### Krakow Loop

**Highlights** Wieliczka, Salt Mines

An invigorating loop out of Krakow takes us to the historic town of Wieliczka this morning. Wieliczka is famous for its salt mine, which operated continuously from the 13th century until 2007. Almost 300 kilometers of passageways spread under the town, and the mine boasts an underground lake, and four chapels carved from the salt by the miners. We'll return to Krakow this afternoon to see more of this stunning city.

### Bicycle from Krakow to Mszana Dolna

**Highlights** Open air skansen (museum village) in Dobczyce

We bicycle southeast out of Krakow passing through Dobczyce. This town shares a reservoir of the same name that boasts the remains of a 13th century castle and an open air village of 18th and 19th century traditional architecture. Stop for coffee and lunch supplies before continuing on to Mszana Dolna where we spend the night.

#### Mszana Dolna to Cervený Kláštor

**Highlights** Rolling hills, Pieniny National Park Poland & Slovakia

Today's ride takes us to the border between Poland and Slovakia and into the heart of the Pieniny National Park. The Pieniny Mountains are one of many small mountain ranges that make up the larger Carpathian Mountain chain and we will pass right through them as we enter Slovakia on a bike and pedestrian-only path along a scenic gorge. This is a rare opportunity and one of the only no-car border crossings we encounter. Our hotel tonight sits along the banks of the Dunajec River.

#### Cervený Kláštor to Levoca

**Highlights** Levoca

Today's ride heads to the heart of the Spis region, a territory rich in northern Slovakian history. Once known for its wealthy traders, craftsmen, and miners, it's no wonder that two of Slovakia's five UNESCO World Heritage sites are located here. We'll continue pedaling through valleys of narrow fields, where grass is still hand-cut by scythes and carried in horse-drawn wagons. We'll have two nights in the ancient town of Levoca, once an important town for commerce. Today, Levoca is probably best known as the home of the medieval sculptor Master Paul of Levoca. Be on your best behavior today so as to not end up in the 17th century "Cage of Shame" in front of the town hall.

As you ride today you'll have the forests that make up part of the Slovak Paradise national park on one side and the High Tatra mountains on the other side. The High Tatras are the highest mountain group in the Carpathian range. The imposing wall of granite peaks rises to a height of 2655 meters from the Poprad basin and the city of Poprad. These snowy mountains, as they were called in the middle ages, are virtually inaccessible except on foot. We'll take a loop ride today to enjoy views of the mountains and, weather permitting, we'll suggest taking the cable car to Lomnický štít, the second highest peak in the High Tatras.

We pedal around the edge of the park, then over a pass in the middle of the mountains. To the northeast are the High Tatras, to the south are the Slovak Rudohorie (Slovak Ore Mountains). Thanks to strict conservation measures the Low Tatras are the home to some of the few populations of brown bear left in Europe.

**LEVEL RATINGS**

Our itinerary descriptions provide daily mileage to help you determine if a bicycle tour is suited to your physical capabilities and interest. You'll also find a note about the trip's terrain on the "Tour Facts" page of each tour. The purpose of this page is to offer a general explanation of our rating categories.

**BIKE TOURS 101**

Perfect for people looking for mostly flat terrain, or those newer to cycling. Also great for families traveling with younger children (8—14).

- **Average daily mileage:** 50—57km (30 to 35 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Terrain:** 101 tours offer flat to gently rolling terrain. You'll find specific information on the "Tour Facts" page of each itinerary where you see the tour rating.

**BIKE TOURS 201**

For riders who prefer a combination of flat and rolling terrain with moderate climbs on one or two days. An excellent compromise for friends who have diverse riding abilities.

- **Average daily mileage:** 50—57km (30 to 35 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Terrain:** 201 tours feature mostly flat and rolling terrain with moderate climbs on one or two days where you might gain up to 2,000 feet. Some 201 tours may have some longer mileage days of up to 85 kms (50 miles) over fairly flat terrain. While others may have days of 30 - 45 kms (18—25 miles) with steeper climbs. You'll find specific information on the "Tour Facts" page of each itinerary where you see the tour rating.

**BIKE TOURS 301**

For riders who enjoy some climbing every day. These tours are best suited to intermediate level recreational riders. Fit beginners will likely do well but may want to shuttle on days with steeper climbs.

- **Average daily mileage:** 50 to 75 km (35—45 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Terrain:** For 301 tours expect cumulative daily climbs of 1,500—2,000 feet and several days of climbing in excess of 3,000 feet. You might encounter some longer mileage 80—90 km (50-60 miles) days with rolling terrain. You'll find specific information on the "Tour Facts" page of each itinerary where you see the tour rating.

**BIKE TOURS 401**

For cyclists who love to climb (and descend)! If you haven't trained or are an inexperienced rider you will find these trips very challenging and will very likely need to shuttle regularly.

- **Average daily mileage:** 50 to 75 km (35—45 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Terrain:** 401 tours are challenging. Expect the possibility of longer mileage days of 80 - 120 kms (50 to 70 miles) with rolling terrain, or some sustained hills for considerable distances - think mountain passes, or steeper (+5%) climbs that come with regularity and could be as long as 10 km (6+ miles). You will have gains of 1000 meters (3000 feet) on a third of the days. You'll find specific information on the "Tour Facts" page of each itinerary where you see the tour rating.

**BIKE TOURS 501**

Our ExpeditionPlus! tours designed for strong riders looking for the challenge of riding across countries or continents. Long daily mileages means limited van support so we recommended these tours for riders who feel confident that they can ride every mile.

- **Average daily mileage:** 120 km (75 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Terrain:** Expect and be prepared for any and everything.

**REMEMBER**

It is almost always possible to adapt the day's ride to how you are feeling either by taking advantage of the support van, or asking tour leaders for additional mileage.

**Need More Miles?** On just about every day of every tour it is possible to add miles to the day. Just talk to your tour leader about the options.

**Need Fewer Miles?** If you aren't sure about your abilities or how much you want to ride remember the support van is available to offer snacks, encouragement, a lift over the next hill, or to the next hotel. You are on vacation and we're here to help make it perfect for you.

**Chalk Dust Arrows.** Remember, no matter what level of tour you choose ExperiencePlus! uses chalk dust arrows to mark our routes so riders can take the day at their own pace! Whether you prefer to stop at every gelateria, take a hundred photos a day, or push to achieve a new personal best you'll be happy on our tours.

## WHAT TO EXPECT

### BICYCLES

Your bike comes with a pack for the rear rack, lock, cyclometer (bicycle computer), a spare tube and patch kit and pump. If you would like to bring your own pedals and shoes we recommend doing so—your tour leaders will install them during the bike fitting. We have flat pedals with or without cages and straps available. For safety and hygiene reasons you are responsible for bringing a helmet.

### Daily Routine (Procedures and Logistics)

#### DAYSHEETS

Each day you'll receive a daysheet with information on the day's activities, meals and ride. These also include Tour Leader phone numbers, hotel information and interesting historical and cultural information about sites that you may want to stop and see along the route. Your Tour Leaders will also post daily announcements in the hotel lobby with information about sightseeing in town or restaurant recommendations for dinners on your own as well as important information about breakfast, luggage down and "arrows down" time.

#### NAVIGATING ON TOUR

At breakfast each day we will make the "Master Route Map" available so you can highlight your map for the day's ride. Of course, we also mark the route every day with our signature chalk dust arrows. Our arrows make navigating very easy—you may never need to look at the map! The arrows also allow you to ride at your own pace. There is no need to "keep up" with the group—this is your ride!

But what if it rains? What happens to the arrows? In a light rain, the arrows actually "set up" and become more permanent. In a heavy rain, they do wash away. If that happens, we'll re-group to cycle together for those who want to continue cycling while those who prefer to stay dry can shuttle.

#### VAN SUPPORT

The van carries luggage and supports cyclists. It also has water, fruit and snacks. Though the van has snacks, we encourage you to stop and enjoy markets and find your own favorite local specialty.

#### HOTELS

We have carefully chosen all of our accommodations for their charm and location. They are typically small, family run hotels that offer you a glimpse into the local culture.

We prefer hotels near interesting sites in the center of town located along the best cycling route in the area. Because many of the hotels are small not all of the rooms will be

exactly the same. We keep this in mind and do our best to distribute rooms fairly by the end of the tour. Our itinerary lists our primary hotels. On rare occasions, listed hotels are subject to change.

#### MEALS AND RESTAURANTS

Breakfasts: we work hard to arrange complete breakfasts but some hotels still serve continental style breakfasts; cycling is energy intensive so we do recommend you plan for a morning or mid-morning snack on the road at a local café or market.

Water is OK in almost all hotels and in country fountains; if there is a problem, we will advise you.

We'll recommend lunch locations en route and most itineraries include a few group picnics. We limit the number of picnics so you don't feel pressured to be at a certain place in the middle of your ride.

Dinners together are often pre-planned and pre-ordered. We'll ask you if you have special dietary requirements. Pre-planned meals allow us to provide a variety of regional specialties and facilitate efficient service. Water, wine and beer are included.

#### TIPPING YOUR TOUR LEADER TEAM

If you feel your tour leader team has demonstrated great expertise and service, common practice within the travel industry is to tip. Tipping is voluntary and greatly appreciated, and gratuity amounts vary widely. Should you decide to leave a tip, as a guideline, we suggest 5% of the tour cost per traveler – this for the entire tour leader team, not each Tour Leader. If you'd like to show your gratitude for your Tour Leaders' excellent service you can give the tip to any member of the tour leader team, as they share it evenly. In order to avoid social tensions, we encourage you to tip as individuals and not as a group. If you feel your Tour Leaders did not quite meet your expectations, then we would like to know about it. You will also have the opportunity to leave your comments in our evaluation survey which we email to you after your trip.

#### PHOTOS

We'll be taking photos throughout the tour and we encourage you to do the same. Please note that we may use these for promotional purposes. Please inform us if you prefer images of you not be used. We realize that many of our travelers are great photographers and often people want to share photos after the trip. We'd love to see and share your photos from the tour with the world so if you don't mind the possibility of being famous (at least in the ExperiencePlus! world) send us a link to your tour photo gallery, or upload your favorite 20 - 30 pictures to your tour departure gallery - we'll send you the link to that online photo gallery in your final email!
