LEVEL RATINGS

Our itinerary descriptions provide daily mileage to help you determine if a bicycle tour is suited to your physical capabilities and interest. You'll also find a note about the trip's terrain on the "Tour Facts" page of each tour. The purpose of this page is to offer a general explanation of our rating categories.

BIKE TOURS 101

Perfect for people looking for mostly flat terrain, or those newer to cycling. Also great for families traveling with younger children (8—14).

- **Average daily mileage:** 50—57km (30 to 35 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Terrain:** 101 tours offer flat to gently rolling terrain. You'll find specific information on the "Tour Facts" page of each itinerary where you see the tour rating.

BIKE TOURS 201

For riders who prefer a combination of flat and rolling terrain with moderate climbs on one or two days. An excellent compromise for friends who have diverse riding abilities.

- **Average daily mileage:** 50—57km (30 to 35 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Terrain:** 201 tours feature mostly flat and rolling terrain with moderate climbs on one or two days where you might gain up to 2,000 feet. Some 201 tours may have some longer mileage days of up to 85 kms (50 miles) over fairly flat terrain. While others may have days of 30 - 45 kms (18—25 miles) with steeper climbs. You'll find specific information on the "Tour Facts" page of each itinerary where you see the tour rating.

BIKE TOURS 301

For riders who enjoy some climbing every day. These tours are best suited to intermediate level recreational riders. Fit beginners will likely do well but may want to shuttle on days with steeper climbs.

- **Average daily mileage:** 50 to 75 km (35—45 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Terrain:** For 301 tours expect cumulative daily climbs of 1,500—2,000 feet and several days of climbing in excess of 3,000 feet. You might encounter some longer mileage 80—90 km (50-60 miles) days with rolling terrain. You'll find specific information on the "Tour Facts" page of each itinerary where you see the tour rating.

BIKE TOURS 401

For cyclists who love to climb (and descend)! If you haven't trained or are an inexperienced rider you will find these trips very challenging and will very likely need to shuttle regularly.

- **Average daily mileage:** 50 to 75 km (35—45 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Terrain:** 401 tours are challenging. Expect the possibility of longer mileage days of 80 - 120 kms (50 to 70 miles) with rolling terrain, or some sustained hills for considerable distances - think mountain passes, or steeper (+5%) climbs that come with regularity and could be as long as 10 km (6+ miles). You will have gains of 1000 meters (3000 feet) on a third of the days. You'll find specific information on the "Tour Facts" page of each itinerary where you see the tour rating.

BIKE TOURS 501

Our ExpeditionPlus! tours designed for strong riders looking for the challenge of riding across countries or continents. Long daily mileages means limited van support so we recommended these tours for riders who feel confident that they can ride every mile.

- **Average daily mileage:** 120 km (75 miles). Be sure to check the day by day itinerary description for the tour you are considering for specific mileages.
- **Terrain:** Expect and be prepared for any and everything.

REMEMBER

It is almost always possible to adapt the day's ride to how you are feeling either by taking advantage of the support van, or asking tour leaders for additional mileage.

Need More Miles? On just about every day of every tour it is possible to add miles to the day. Just talk to your tour leader about the options.

Need Fewer Miles? If you aren't sure about your abilities or how much you want to ride remember the support van is available to offer snacks, encouragement, a lift over the next hill, or to the next hotel. You are on vacation and we're here to help make it perfect for you.

Chalk Dust Arrows. Remember, no matter what level of tour you choose ExperiencePlus! uses chalk dust arrows to mark our routes so riders can take the day at their own pace! Whether you prefer to stop at every gelateria, take a hundred photos a day, or push to achieve a new personal best you'll be happy on our tours.

WHAT TO EXPECT**BICYCLES**

Your bike comes with a pack for the rear rack, lock, cyclometer (bicycle computer), a spare tube and patch kit and pump. If you would like to bring your own pedals and shoes we recommend doing so—your tour leaders will install them during the bike fitting. We have flat pedals with or without cages and straps available. For safety and hygiene reasons you are responsible for bringing a helmet.

Daily Routine (Procedures and Logistics)**DAYSHEETS**

Each day you'll receive a daysheet with information on the day's activities, meals and ride. These also include Tour Leader phone numbers, hotel information and interesting historical and cultural information about sites that you may want to stop and see along the route. Your Tour Leaders will also post daily announcements in the hotel lobby with information about sightseeing in town or restaurant recommendations for dinners on your own as well as important information about breakfast, luggage down and "arrows down" time.

NAVIGATING ON TOUR

At breakfast each day we will make the "Master Route Map" available so you can highlight your map for the day's ride. Of course, we also mark the route every day with our signature chalk dust arrows. Our arrows make navigating very easy—you may never need to look at the map! The arrows also allow you to ride at your own pace. There is no need to "keep up" with the group—this is your ride!

But what if it rains? What happens to the arrows? In a light rain, the arrows actually "set up" and become more permanent. In a heavy rain, they do wash away. If that happens, we'll re-group to cycle together for those who want to continue cycling while those who prefer to stay dry can shuttle.

VAN SUPPORT

The van carries luggage and supports cyclists. It also has water, fruit and snacks. Though the van has snacks, we encourage you to stop and enjoy markets and find your own favorite local specialty.

HOTELS

We have carefully chosen all of our accommodations for their charm and location. They are typically small, family run hotels that offer you a glimpse into the local culture.

We prefer hotels near interesting sites in the center of town located along the best cycling route in the area. Because many of the hotels are small not all of the rooms will be

exactly the same. We keep this in mind and do our best to distribute rooms fairly by the end of the tour. Our itinerary lists our primary hotels. On rare occasions, listed hotels are subject to change.

MEALS AND RESTAURANTS

Breakfasts: we work hard to arrange complete breakfasts but some hotels still serve continental style breakfasts; cycling is energy intensive so we do recommend you plan for a morning or mid-morning snack on the road at a local café or market.

Water is OK in almost all hotels and in country fountains; if there is a problem, we will advise you.

We'll recommend lunch locations en route and most itineraries include a few group picnics. We limit the number of picnics so you don't feel pressured to be at a certain place in the middle of your ride.

Dinners together are often pre-planned and pre-ordered. We'll ask you if you have special dietary requirements. Pre-planned meals allow us to provide a variety of regional specialties and facilitate efficient service. Water, wine and beer are included.

TIPPING YOUR TOUR LEADER TEAM

If you feel your tour leader team has demonstrated great expertise and service, common practice within the travel industry is to tip. Tipping is voluntary and greatly appreciated, and gratuity amounts vary widely. Should you decide to leave a tip, as a guideline, we suggest 5% of the tour cost per traveler – this for the entire tour leader team, not each Tour Leader. If you'd like to show your gratitude for your Tour Leaders' excellent service you can give the tip to any member of the tour leader team, as they share it evenly. In order to avoid social tensions, we encourage you to tip as individuals and not as a group. If you feel your Tour Leaders did not quite meet your expectations, then we would like to know about it. You will also have the opportunity to leave your comments in our evaluation survey which we email to you after your trip.

PHOTOS

We'll be taking photos throughout the tour and we encourage you to do the same. Please note that we may use these for promotional purposes. Please inform us if you prefer images of you not be used. We realize that many of our travelers are great photographers and often people want to share photos after the trip. We'd love to see and share your photos from the tour with the world so if you don't mind the possibility of being famous (at least in the ExperiencePlus! world) send us a link to your tour photo gallery, or upload your favorite 20 - 30 pictures to your tour departure gallery - we'll send you the link to that online photo gallery in your final email!
